

InsectDog Mini Grainfree

with insect protein & animal welfare chicken

Little bites, big flavour: our InsectDog Mini Grainfree can fill the bowl of any mini dog. The balanced recipe is optimally suited for the rearing of all breeds, from 8 weeks old. A balanced calcium/phosphorus ratio and minerals in an easily absorbable form support strong bone development and healthy joints. For the grain-free recipe, we rely on insect protein and animal welfare chicken, with a view to providing your pet with everything he needs, while also protecting the environment.

grainfree recipe

This recipe does not contain any grain and is suitable as a daily grainfree food for healthy and sensitive dogs.

small bites

The extra small bites with big flavour are perfectly suited for small or young dogs.

The recommended feed quantity is per animal per day. The recommended amounts are based on the weight of the adult dog. The optimal growth rate of the dog should be achieved thanks to a moderate supply of energy. If your dog is too big and heavy for his age, it is advisable to reduce the amount of food. An adequate supply of nutrients is ensured even with smaller portions. Please make sure your animal has fresh water at all times.

Complete feed for growing dogs from 8 weeks old and adult dogs.
